

Mobilescape helped save critical time in our payment process by letting our Carside to Go™ specialists handle credit card payments at the vehicle, eliminating unnecessary trips into the restaurant. Commerçant was completely responsive to Applebee's requirements, helping us to craft the right wireless payment processing solution for our business.

Mike Czinege, CIO
Applebee's International, Inc.

The Total Wireless Payment Solution for Checks and Credit Cards

No more bounced checks! **The Mobilescape® 5000** is the first wireless, handheld payment processing solution for both checks and credit cards. The rugged Mobilescape terminal enables secure, rapid payment transactions anywhere. It is easy to use and provides the convenience of accepting both checks and credit cards — all in one unit.

Billions of checks are written every year, but the number of bounced or lost checks continues to increase — a serious financial risk. Now with Mobilescape, paper checks are converted to electronic payments on-the-spot, thereby minimizing the risk of collection, and even expediting the collection of funds. With the appropriate check verification and guarantee subscriptions, funds are usually deposited the next business day instead of the usual two to five days.

For businesses that rely on payments on the go, Mobilescape provides flexibility of payment options that improve both customer satisfaction and the bottom line. The affordable Mobilescape solution includes hardware, software, integration services, wireless service, transaction processing, and unbeatable support and maintenance.

Reduce Risks by Eliminating Bounced Checks, Lost Checks and Credit Card Losses

- Collect payments with the appropriate check verification and guarantee subscriptions
- Capture and electronically store valid signatures on Mobilescape's touch screen

Increase Revenues

- Conduct more business by minimizing trips to the bank to deposit checks
- Customers tend to spend more when paying by credit card
- Lower processing fees with card-present transactions
- Improve cash flow by collecting funds faster

Improve Operational Efficiency

- Eliminate paper receipt management with immediate online account access
- Avoid time consuming trips to the bank to deposit checks
- Print customer receipts on the spot

With Mobilescape, accepting check and credit card payments everywhere frees you to focus on your business, not on collecting payments or going to the bank. For more information and to order Mobilescape, call (713) 735-5500 or visit www.commerçant.com.

Mobilescape by Commercial—mPowering Payments Everywhere.

Let Commercial show you how to improve your revenues and reduce risk with our innovative payment processing solutions.

Mobilescape Advantages

Accept Credit Cards and Checks with One Device

The flexibility of accepting both credit cards and checks improves both customer satisfaction and the bottom line.

Instant Online Account Access

Instant online access eliminates lost credit card imprints, reduces the number of charge backs and makes funds available faster.

Nationwide Wireless Network

Through our partnership with Sprint Nextel, you're covered on the PCS wireless network.

Next Day Maintenance

If your Mobilescape goes down and is covered by our maintenance program, we'll ship a replacement by the next business day.
